SKILLS

React.js, Redux, JavaScript, jQuery, Ruby, Ruby on Rails, SQL, Git, HTML5, CSS3

PROJECTS

ChewTube

[Live Site](#) | [Github](#)

A video sharing web app inspired by YouTube built using Ruby on Rails and React.js

- Leveraged Rails polymorphic associations for video and comment likes resulting in DRY code
- Designed React menu card component to be reusable by abstracting its props for more maintainable code
- Incorporated Canvas and FileReader APIs to dynamically generate thumbnails during video upload process for a more intuitive user experience

ClackRacer

[Live Site](#) | [Github](#)

A browser-based typing game inspired by TypeRacer built with JavaScript, HTML & CSS

- Implemented on-screen keyboard using SVG HTML elements for responsive display and improved visual feedback for players
- Utilized JavaScript localStorage to store and retrieve results as stringified JSON for top ten personal high scores

EXPERIENCE

ION Group

New York, NY

Professional Services Consultant

Jan 2017 - Oct 2018

- Served as client's primary point of contact for a high visibility workstream on a multimillion dollar implementation project
- Led client workshops to develop clear and comprehensive requirements enabling faster response and delivery from our product teams
- Facilitated structured deployment testing resulting in improved client satisfaction and reduced number of required hotfixes

Leadership Development Program

Jul 2015 - Jan 2017

- Completed 18-month rotational program as one of the top analysts
- Created Excel tools to normalize client data from multiple sources helping inform sales and marketing strategy

EDUCATION

App Academy

New York, NY

Full-Stack Web Development Program

Nov 2018 - Feb 2019

- 1000-hour immersive web development course with < 3% acceptance rate
- Emphasis on CS fundamentals, TDD, and coding style

Boston College

Chestnut Hill, MA

Carroll School of Management, B.S. in Management

Sep 2011 - May 2015

- GPA: 3.4
- Concentrations: Finance and Computer Science
- Course highlights: Intro to Programming, Data Structures and Algorithms, Computer Systems, Mobile App Development
